Experience the Optimum in
4-CHANNEL Sound Performance

MAKING INCREDIBLE SOUND EVEN BETTER

Great musicians agonize until every note is perfect. Sound engineers labor long and hard to get the audio just right. So, wouldn't it be a crime to buy lousy speakers and ruin it all? At Altec Lansing, our sound artisans developed the Select 641 speaker system to deliver the finest quality sound. The 641 series envelopes you in a breathtakingly real sound experience. You'll feel its tight, clean bass extensions—down to 27 Hz. And you'll marvel at its impressive clarity, effortless dynamics, and deep spatial presentation.

Experience the Optimum in

4-CHANNEL

Sound Performance

① 400 WATTS TOTAL SYSTEM POWER

Featuring high efficiency Class D digital subwoofer amplification.

② TRI-MODE™ SELECTOR

This exclusive feature allows you to experience the optimum in sound. Each listening mode is selectively engineered to provide the listening characteristics you need for the ultimate in performance.

- **The Game Mode's 4** discrete channels puts you into the game... with full, deep, resounding bass and distinct clear highs to let you feel the action for the ultimate gaming experience.
- **The Music+ (Stereo X2) Mode** fills the room... all around you... every detail pure and clear.
- **The Stereo Mode** delivers the same great sound to the front two stereo speakers.

③ DUAL SUBWOOFER DRIVERS

You get exceptional low frequency performance from dual ported, front firing, long-throw drivers that are set in a solidly built wooden cabinet.

④ MYLAR TWEETERS

Deliver crisp high-end frequency response.

⑤ HIGH PERFORMANCE DRIVERS

Deliver smooth mid and mid bass.

⑥ FULL-FUNCTION DIGITAL CONTROLLER

Power on/off, mode selector, master and rear volume... plus treble and bass control lets you select exactly the sound you want. Simply sit back and enjoy the experience!

⑦ TOTAL CONNECTIVITY

Easily connects to Gaming Consoles (with included AAC1 adapter), portable CD players, MP3 players, PCs and other analog / digital sources.

⑧ HEADPHONE JACK

On controller for easy access and private listening.

⑨ AUXILIARY INPUT JACK

For increased signal input flexibility.

⑩ WALL BRACKET

Just in case you want the satellites on the wall.

⑪ SHIELDED SATELLITES

for use near video monitors.
